## EDUCATION

---

**BSc Economics (*with Industrial Placement*)**  
**University of Leeds**

**Sep 2021 – Jul 2025**  
**Leeds, England**

- 2:1 Honours
- Distinctions: Nominated as one of only two from a cohort of 500+ for the LUBS Partnership Award for outstanding contributions to student leadership and community impact

**International AS & A Levels**  
**The Cambridge High School**

**Sep 2019 – Jul 2021**  
**Abu Dhabi, UAE**

- A Level – A\*A\*A (Economics, Mathematics, Business)
- AS Level – AAAA (Accounting, Business, Economics, Mathematics)

## EXPERIENCE

---

**Consultant**  
**Leeds Community Consulting**

**Sep 2024 – Jul 2025**  
**Leeds, England**

- Led a revenue diversification project for a Leeds-based tech firm to optimise product mix, identifying opportunities to increase revenue by 15%
- Extracted and structured thousands of rows of data in SQL to build interactive Power BI dashboards that cut reporting time by 50% and streamlined analysis workflows for five senior executives
- Used Pandas and Plotly in Python to clean multi-period user data and visualise product-level sign-up trends across 2k+ users, uncovering a 15% drop in two core products and identifying key drivers
- Built automated NLP pipelines combining API scrapers and fine-tuned HuggingFace models (DistilBERT) to generate sentiment metrics, identifying a 33% surge in negative customer feedback over a legacy product
- Produced a strategy report on competitor benchmarking, audience perception and revenue strategy; presented recommendations to launch two new products, both of which were adopted by the client

**Economist**  
**Department for Work and Pensions**

**Oct 2023 – Sep 2024**  
**London, England**

- Modelled capital allocation decisions across 350 local authorities by processing data and building econometric models in R, informing £200bn in annual expenditure affecting 24mn claimants
- Designed and evaluated a behavioural SMS nudge campaign, boosting Universal Credit uptake by 200bps in a cluster-based trial across four local authorities and 800k+ claimants
- Synthesised complex quantitative analysis on 7.4mn Universal Credit claimants into internal memoranda and briefings, presenting findings to senior leadership and No.10 staff under tight deadlines
- Audited and re-built forecast models in Excel, cutting processing time by 20% and reducing error through version control and dynamic scenario modelling
- Chaired a 300+ attendee economics forum and mentored four cross-departmental teams on quantitative methodology; awarded Silver Award for performance and leadership out of a cohort of 12 DWP interns

## EXTRACURRICULAR ACTIVITIES

---

- Indus Labs: Founder and alpha-testing an interactive word-logging app; [Proof of Concept](#)
- University of Leeds: Final year course representative for a cohort of 250+ Economics undergraduates
- University of Leeds: Accredited PASS Mentor two years in a row for a cohort of 48 juniors
- Universities Business Challenge: Semi-finalist; led a team of four to top 20% of 300 teams
- TEDxYouth: Delivered a talk on “Ambition”, reaching 1.8k+ viewers
- Operation Smile Volunteer: Raised AED1k+ in fundraising by leading stall sales and engagement campaigns
