Chartered Financial Analyst (CFA) Institute
Expected Aug 2026

INTERNSHIP EXPERIENCE

Consultant
Leeds Community Consulting
Sep 2024 – Jul 2025
Leeds, England

- Managed a corporate client engagement as primary point of contact, including client meetings and check-ins; coordinated *eight* junior consultants across *three* workstreams to deliver strategic outputs on schedule.
- Analysed financial statements and data using the Pandas, NumPy and Plotly libraries to identify profitability decay in *two* core segments, establishing data baselines for margin-protection strategies.
- Built a regression-based financial model in Stata to evaluate revenue sensitivities, providing baselines for the client's growth strategy.
- Applied HuggingFace LLMs in Python to conduct sentiment analysis on API-scraped market and social media data, generating insights used directly in strategic recommendations.
- Produced a strategy report and client presentation covering competitor benchmarking, audience perception and revenue strategy; presented recommendations in a client meeting, praised for clarity.

Economist
Department for Work and Pensions (*Government Economic Service*)
Oct 2023 – Sep 2024
London, England

- Modelled capital allocation decisions across *350* local authorities by building regression-based financial models in R and Excel, directly informing *£200bn* in annual expenditure affecting *24mn* claimants.
- Designed and evaluated a behavioural SMS nudge in SAS to increase uptake of Universal Credit, piloting a cluster-based trial across four local authorities and *800,000+* claimants.
- Synthesised complex quantitative analysis on *7.4mn* Universal Credit claimants into internal memoranda and briefings, presenting findings in senior leadership and No.10 meetings under tight deadlines.
- Audited and re-engineered forecasting workflows, cutting processing time by *20%* and reducing error through version control and dynamic scenario modelling.
- Chaired a *300+* attendee economics forum and mentored *four* cross-departmental teams on quantitative methodology and data presentation best practice; awarded Silver Award for performance and leadership.

VOLUNTEER & EXTRA-CIRRICULAR EXPERIENCE

- Founder of Indus Labs (alpha-testing an Android App; [Proof of Concept](#)).
- Delivered a TEDxYouth Talk reaching 1,800+ viewers on the topic of Ambition.
- Semi-finalist, Universities Business Challenge, leading a team through a business strategy competition.
- Volunteer Treasurer for Red Crescent, Operation Smile and LU Sailing Society.

CERTIFICATIONS & SKILLS

- Microsoft Office Specialist – Excel Associate, Python, R, Stata, SAS Programming and Enterprise Guide, CSS, HTML, JavaScript, University of Oxford – Map The System
